No deposit - No contract - No installation fees - No equipment rental fees - Wi-Fi modem via no-cost lease

## Mediacom offers a simple, affordable way to help students get quality home internet.

The internet is essential for successful learning and Mediacom wants to help families with K-12 students get connected. Mediacom Connect2Compete is offered as one of the ways our company works to close the "digital divide."

We participate with "EveryoneOn," a national non-profit program. Our goal is to make home internet access simple and affordable so that students have a reliable connection to participate in a digital curriculum and extend the learning experience from school to home. Mediacom makes this service available to eligible families in all areas where Mediacom's broadband network is present.

### See how you can get connected. Your household may qualify if:

- Mediacom offers internet service in your community or area
- You have at least one student in grades K-12 living at home
- At least one child qualifies for free or reduced-price school lunch through the National School Lunch Program (NSLP)
- You are not a current Mediacom internet customer and have NOT subscribed to our internet service in the past 90 days
- You do not have an outstanding Mediacom bill or unreturned equipment\*\*

Internet for only \$9.95 a month + tax
